Kaspar Lienhard — cv

I build the thing that guesses the next number. Forecasts, mostly, for people with a great deal of history and

Was ich mache / What I do:

- A forecast you can put in front of a board — CHF 12000, three weeks.
- A model review, including whether it should exist — CHF 3400.
- Two days of looking at your data before anybody promises anything — CHF 2200.
