Sami Kaufmann — cv

I keep old software alive: COBOL on a mainframe, two Delphi applications, and a Access database that runs a

Was ich mache / What I do:

- Keeping a COBOL batch running, with the handover written down — CHF 1300/day.
- Moving a Delphi application to something newer, in stages — CHF 24000.
- An honest look at how long you have left — CHF 1800, two days.
